

You Move Me – Capo 3  
Susan Ashton

G                      Bm    G                      Bm  
This is how it seems to me,    life is only therapy  
C                      G                      D  
Real expensive and... no guarantees  
G                      Bm    G                                      Bm  
So I lie here on the couch,    with my heart hanging out  
C                      G                                      D  
Frozen solid with fear,    like a rock in the ground

Chorus 1:

Em              C    G    Bm  
But you move me  
Em              C              G              D  
You give me courage I didn't know I had,  
Em              C    G    Bm  
You move me  
Em              C              G              D  
I can't go with you and stay where I am so,  
C              G  
You move me

Verse 2:

G                      Bm    G                      Bm  
Here is how love was to me,    I could look and not see  
C                      G                                      D    G  
Going through the emotions,    not knowing what they mean  
   Bm    G                                      Bm  
And it scared me so much,    that I just wouldn't budge  
C                                      G                                      D  
I might have stayed there forever,    if not for your touch

Chorus 2:

Em                      C    G    Bm  
Oh, but you move me  
Em              C              G              D  
Out of myself and into the fire  
Em              C    G    Bm  
You move me  
Em              C              G              D  
Burning with love and with hope and desire,  
C  
How you move me

Bridge:

Am C  
you go whistling in the dark

G D  
Making light of it, making light of it

Am C  
and I follow with my heart

D  
Laughing all the way

Chorus 3:

Em C G Bm  
Oh, 'cause you move me

Em C G D  
You get me dancing and you make me sing,

Em C G Bm  
You move me

Em C G D  
Now I'm taking delight in every little thing

C G D  
You move me ohhhhhhhhhh..

Am G D  
You move me ohhhhhhhhhh..

Am G D  
You move me ohhhhhhhhhh..

You move me
